YING-TING WANG TAIWAN

Although I had studied in a similar field in my home country, I never had that many practical learning experiences until I came to San Diego. At UC San Diego Extension, I am able to create my own lesson plans, teaching different language skills. I also have plenty of chances to do demonstrations and receive constructive feedback from my peers and teachers, which has helped me develop my own teaching style and better understand how to be a great English teacher. I firmly believe the TEFL program helped me lay the foundation of a career in teaching English. I will be able to apply every single lesson in my future classroom.

EXAMPLE OF PATHWAY TO OPTIONAL PRACTICAL TRAINING (OPT)

After one academic year (three consecutive quarters) of full-time study in a non-language program in the United States, students with F-1 status can apply for permission to work up to 12 months in their field of study as a practical application of what they have learned. This is called Optional Practical Training (OPT).

The International Student Services (ISS) staff will assist students with their application for OPT and continue advising during their employment authorization period. The ISS staff has a very high success rate with OPT applications. They cannot, however, guarantee the approval of the application by the U.S. government. Please note that the ISS staff does not assist with job search or job placement services.
